

I am filing a complaint against Sinclair Broadcasting. I find it abhorrent that a station can have such control and power over their stations that they are forced to show such partisan political material, that is both inflammatory and subjective. I feel that the media in this country is far from being neutral, and that they wield power and influence far beyond what their mission and goals should allow. I am asking you to either prevent Sinclair from airing this show on Kerry, or give the film Up the River, equal time.
